

INTRODUCING THE MINNOW MANSION

A BAIT INSERT FOR THE FISH KENNEL™

Any fisherman knows that minnows and leeches can make quite a dent in the pocketbook throughout the course of the fishing season. Wouldn't it be great to show up at the cabin for a weekend of fishing and know your bait from the previous trip is healthy and ready to go?

Now introducing, The Minnow Mansion, a bait holding insert for The Fish Kennel.

Once again, it's virtually rust proof with a fine mesh to contain any size minnow or leach you'd like to keep healthy and fresh for your fishing outings. At 8" wide and 12" long and 32" deep, it is made to perfectly fit your Fish Kennel without infringing on the fish keeping capabilities of The Kennel. The cover also conveniently closes with velcro to contain those climbing leeches.

The Minnow Mansion is the icing on the cake for any Fish Kennel owner. Optimize your chances of "taking it off the line.... And keeping it in the Kennel!"
